

discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least ten days prior to the meeting date.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys Off New Jersey and New York for Atlantic Shores Offshore Wind, LLC; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an incidental harassment authorization; correction.

SUMMARY: On April 22, 2022, a notice was published in the **Federal Register** announcing the issuance of an incidental harassment authorization (IHA) for take of marine mammals incidental to marine site characterization surveys off New Jersey. That document inadvertently omitted some text in NMFS' response to public comment 13. This document only corrects this error; all other information is unchanged.

FOR FURTHER INFORMATION CONTACT: Kelsey Potlock, Office of Protected Resources, NMFS, (301) 427-8421.

SUPPLEMENTARY INFORMATION:

Background

NMFS published a notice in the **Federal Register** on April 22, 2022 (87 FR 24103) announcing that an IHA had been issued to Atlantic Shores, LLC, authorizing the take of marine mammals incidental to marine site characterization surveys off of New Jersey, effective from April 20, 2022 through April 19, 2023. NMFS refers the reader to the April 22, 2022, **Federal Register** notice (87 FR 24103) for background information concerning the IHA.

Correction

On page 24108 in the section for NMFS' response to *Comment 13* is corrected to read as follows:

Comment 13: Oceana and LBI recommended increasing the Exclusion Zone to either 1,000 m or 2,500 m, respectively, for NARWs.

Response: NMFS notes that the 500 m Exclusion Zone for NARWs exceeds the modeled distance to the largest 160 dB Level B harassment isopleth distance (141 m during sparker use) by a substantial margin. Commenters do not provide a compelling rationale for why the Exclusion Zone should be even larger. Given that these surveys are relatively low impact and that, regardless, NMFS has prescribed a NARW Exclusion Zone that is significantly larger (500 m) than the conservatively estimated largest harassment zone (141 m), NMFS has determined that the Exclusion Zone is appropriate. Further, Level A harassment is not expected to result, even in the absence of mitigation, given the characteristics of the sources planned for use. As described in the Mitigation section, NMFS has determined that the prescribed mitigation requirements are sufficient to effect the least practicable adverse impact on all affected species or stocks

Dated: April 29, 2022.

Kimberly Damon-Randall,

Director, Office of Protected Resources, National Marine Fisheries Service.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Monkfish Committee to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Thursday, May 26, 2022 at 10 a.m.

ADDRESSES: This meeting will be held at the Radisson Airport Hotel, 2081 Post Road, Warwick, RI 02886; telephone: (401) 739-3000.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Monkfish Committee will meet to discuss the draft 2022 Monkfish Fishery Performance Report: Including recent fishery data and input by the Monkfish Advisory Panel on the current state of the fishery. They will discuss Framework Adjustment 13 to the Monkfish Fishery Management Plan: Develop alternatives for an action that is likely considering: 2023-25 monkfish fishery specifications, including Days-At-Sea allocations and possession limits, and other management measures (requiring 12-inch minimum mesh size for monkfish gillnets, requiring use of the Vessel Monitoring System across the federal fishery, measures to reduce discards in the Southern Fishery Management Area). The Committee will discuss research priorities: 2022-26 NEFMC Research Priorities and Data Needs: Finalize recommended updates; 2023-24 Monkfish Research-Set-Aside Program: Recommend research. Other business will be discussed if necessary.

Although non-emergency issues not contained on this agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
